

Gawler Place Upgrade

Your Say Adelaide survey

“I agree/strongly agree that this design element is important to me”

Key themes in comments

Several key themes emerged from comments submitted through the engagement process.*

48

support for concept design

“trellis with greenery is a great idea ... to create a cool walking environment”

“overall the plan looks like a massive improvement”

“plans for Gawler Place south and north both look excellent”

32

pedestrian safety

“the increase in footpath width is absolutely vital, as it currently presents a significant safety hazard for the thousands of pedestrians transiting per day”

“reduce non-commercial traffic in the south”

16

other suggestions

“some pretty overhead festoon lighting might also create a nice mood there at night”

“police the no smoking areas”

“better and smart street lighting at night”

13

business disruption concerns

“start North Terrace side of upgrade first to be in line with the proposed tram stop ... once off disruption rather than twice within the 12 month period”

“concerned the trees would block the view of the shop fronts”

*Please note some comments can be grouped under one or more key themes, for instance a supportive comment for wider footpaths will be included under both the ‘support for concept design’ and ‘pedestrian safety.’
